

# CAMARO • FIREBIRD • CAMARO

Karl Chico, "At the Limit", Hotchkis Truck Day 2001

67-81 GM F-BODY

• Improves Handling

• Lightweight Hollow Front & Rear Sway Bars

## SPORT SWAY BARS

Improve cornering and straight line performance with our sway bar package. The combination of the hollow 1 1/2" front and 7/8" rear bars control the roll of your car in the corners, and allow you to put more power down on the straights. These high carbon steel sway bars are finished in gloss black powdercoat and come complete with polyurethane bushings, endlinks, stainless steel U-bolts, fabricated brackets and hardware.

• Lowers 2"  
• Performance Ride Coils

## SPORT COIL SPRINGS

Lower your Camaro/Firebird 2" from stock and improve handling with our coil springs. They provide an aggressive stance with a firm, but not harsh ride. Each dark gray powdercoated spring is precision wound using the highest quality steel.

• Lowers 1 1/2"  
• Complete Rear Kit

## SPORT LEAF SPRINGS

Improve the performance and look of your Camaro/Firebird with our Performance 1 1/2" lowering leaf springs. Unlike mono-leaves, these steel multi-leaf packs provide a progressive spring rate for true performance driving. The complete leaf spring kit comes with heavy duty shackles, grade 8 hardware, and all necessary components for a complete installation.

# PROVEN RESULTS

"I am impressed with the performance and quality."  
John Lingenfelter, Lingenfelter Performance Engineering

"High quality stuff that works as well as it looks."  
Bo McGonegal, Editor, Hot Rod

"Thanks again to Hotchkis Performance for making my Avalanche more fun to drive."  
Jimmy R. Vanu, 2001 Chevy Avalanche

"Hotchkis parts bolted up to our Chevelle with a perfect fit and turned it from a classic into a "G" machine! The difference was unbelievable."  
Tim Kerrigan, Red Line Oil

"My Yukon was noticeably more stable in turns; body roll was virtually eliminated and both vehicle and boat tracked straighter."  
Don Wirth, Bassmaster

Cam Douglas "at speed" Silver State Challenge

## TESTING SERVICE

In addition to our in-house product testing, we provide our testing service to outside customers. Major automobile manufacturers and media companies have benefited from the racing and development experience of John Hotchkis and our talented R&D group. Sport Truck magazine has used Hotchkis Testing for their last five performance truck evaluation articles including Sport Truck/SUV of The Year. Other clients include 5.0 Mustang with Yokohama Tire and Truckin' magazine. From skid pad, slalom, drag strip or road course, Hotchkis Testing can handle it for you.

## RESEARCH & DEVELOPMENT

Our R&D and installation departments are constantly busy developing new suspension packages. Our fully equipped shop allows the talented group to construct new products and project cars quickly. The engineering team spends many hours designing suspension on our powerful Solid Works CAD computer system.
